Eigenschappen

Juwel Aquarium Primo 110 is een aquarium dat uitgevoerd is met een sterk Bioflow ONE filter. Dit binnenfilter bevindt zich in het aquarium waardoor het water in het aquarium blijft, wat lekkages kan voorkomen. De Bioflow ONE filter heeft een geruisloze krachtige Eccoflow circulatiepomp. De temperatuur in de Juwel Primo 110 wordt geregeld door een regelbare verwarming van 50 Watt, die optimaal geïnstalleerd is in de waterdoorstroming van het Bioflow ONE filter.
